Date: Contractor:

Temporary Gas Utility Disconnect

The gas service has been turned off at the shut-off valve.

Gas, 19th & Wood Streets,

Fax# 304-233-6451

Date Disconnected

Signing off on this will enable the demolition contractor to obtain the necessary permit to start the work. The first requirement of the contractor when he gets on site is to dig-up the gas line at the shut-off valve, call the gas company and disconnect the service line and cap according to the requirements of the gas company. Only after this work is completed will the contractor be allowed to start the demolition. The gas company will then sign off on the Utility Disconnect Sheet.

Demolition Gas Utility Disconnect Sheet

Job Site:

Date:

Contractor:

Temporary Gas Utility Disconnect

The gas service has been turned off at the shut-off valve.

Fax# 304-233-6451

Date Disconnected

Signing off on this will enable the demolition contractor to obtain the necessary permit to start the work. The first requirement of the contractor when he gets on site is to dig-up the gas line at the shut-off valve, call the gas company and disconnect the service line and cap according to the requirements of the gas company. Only after this work is completed will the contractor be allowed to start the demolition. The gas company will then sign off on the Utility Disconnect Sheet.

Demolition Utility Disconnect Sheet

The ICC International Building Code, Section 3303, Demolition, states that a demolition permit cannot be obtained until the owner or agent receives a release from all utility companies stating that their respective service connection and appurtenant equipment have been removed or sealed or plugged in a safe manner.

Therefore, before this office can issue a demolition permit, the following form must be filled out and returned to the Building Inspection Office.

Demolition Gas Utility Disconnect Temporary Permit Sheet

The gas service has been turned off at the shut-off valve.

Gas 19th & Wood Sircele | Fax# 304-233-6451

Signing off on this will enable the demolition contractor to obtain the necessary permit to start the work. The first requirement of the contractor when he gets on sito is to digrup the gas line at the shut-off valve, call the gas company and disconnect the service line and cap according to the requirements of the gas company. Only after this work is completed will the contractor be allowed to start the demolition. The gas company will then sign off on the Utility Disconnect Sheet.

Demolition Utility Disconnect Sheet

The ICC International Building Code, Section 3303, Demolition, states that a demolition permit cannot be obtained until the owner or agent receives a release from all utility companies stating that their respective service connection and appurtenant equipment have been removed or sealed or plugged in a safe manner.

Therefore, before this office can issue a demolition permit, the following form must be filled out and returned to

the Building Inspection Office.

Demolition Utility Disconnect Sheet

The ICC International Building Code, Section 3303, Demolition, states that a demolition permit cannot be obtained until the owner or agent receives a release from all utility companies stating that their respective service connection and appurtenant equipment have been removed or sealed or plugged in a safe manner.

Therefore, before this office can issue a demolition permit, the following form must be filled out and returned to the Building Inspection Office.

Temporary Gas Utility Disconne	ct	Date Disconnected
The gas service has been turned	off at the shut-off valve.	
		6-8-12
Gas, 19th & Wood Streets	Fax# 304-233-6451	CP C / Z

Signing off on this will enable the demolition contractor to obtain the necessary permit to start the work. The first requirement of the contractor when he gets on site is to dig-up the gas line at the shut-off valve, call the gas company and disconnect the service line and cap according to the requirements of the gas company. Only after this work is completed will the contractor be allowed to start the demolition. The gas company will then sign off on the Utility Disconnect Sheet.

#### **Demolition Utility Disconnect Sheet**

The ICC International Building Code, Section 3303, Demolition, states that a demolition permit cannot be obtained until the owner or agent receives a release from all utility companies stating that their respective service connection and appurtenant equipment have been removed or sealed or plugged in a safe manner.

Therefore, before this office can issue a demolition permit, the following form must be filled out and returned to the Building inspection Office.

#### Demolition Utility Disconnect Sheet

The ICC International Building Code, Section 3303, Demolition, states that a demolition permit cannot be obtained until the owner or agent receives a release from all utility companies stating that their respective service connection and appurtenant equipment have been removed or sealed or plugged in a safe manner.

Therefore, before this office can issue a demolition permit, the following form must be filled out and returned to the Building Inspection Office.
